Executive Bio

Kevin Hasley

Managing Director,
Benchmark & Drive Testing Products & Services

Kevin Hasley is the Managing Director, Benchmark & Drive Testing Products & Services at Ookla, a global leader in connectivity intelligence and an Accenture company. With more than three decades of experience in the mobile and telecommunications industry, he leads efforts to advance and expand the impact of Ookla's testing and benchmarking portfolio.

Before transitioning to his current role, Kevin served as Ookla's Vice President of Strategic Initiatives. Prior to joining the company, he was the CEO of RootMetrics, which Ookla acquired in 2021. Earlier in his career, he helped shape the market position of the OMAP mobile application platform at Texas Instruments. He also chairs the Broadband Advocacy Workgroup for the World Broadband Association.

Kevin holds a Bachelor of Science in Electrical Engineering from Pennsylvania State University and is a recipient of the Tau Kappa Alpha Outstanding Engineering Award.
